

Pacer Protect

Shared Two-Factor Authentication + Last-Minute Filing Support Built for Law Firms

Pacer Protect is Counsel Press's custom-built 2FA solution tailored for law firms navigating the federal judiciary's new PACER multifactor authentication (MFA) mandate ([read more](#)).

We provide the flexibility, security, and shared access that high-performing legal teams require for efficient e-filing. In addition to supporting your team throughout the process, Counsel Press can also manage and complete the filing on your behalf when needed.

Why Pacer Protect?

With PACER now enforcing two-factor authentication for all users, legal teams face added complexity in coordinating filings. Most security tools are not designed to support legal workflows and multi-user filing teams. Pacer Protect is designed to simplify compliance and collaboration throughout the filing process.

We are dedicated to ensuring your filing experience is seamless, secure and successful.

The difference between success and failure.

Key Features

Shared 2FA Access for Teams

- Assign multiple two-factor authentication (2FA) devices to a single PACER account
- Securely distribute authentication codes to unlimited authorized support staff
- Enable seamless, large-scale collaboration while maintaining strict compliance standards

Portal Integration

- Fully integrated with the Counsel Press secure e-filing portal
- Provides streamlined access to PACER tools, filing history, and official court communications

Best-in-Class Security Infrastructure

- Credentials and multi-factor authentication tokens managed using Bitwarden, the gold standard in encrypted storage
- Features zero-knowledge encryption, comprehensive audit logging, and role-based access control
- Designed for built-in compliance with top-tier security and regulatory frameworks

Our Market Differentiator: We File on Your Behalf

No other security vendor offers this level of hands-on support

- **Last-minute filing assistance** — when your team is unable to file on time, our experts step in without delay and e-file on your behalf
- **Pre-authorized PACER access** — we already have shared access to your account, eliminating delays or setup time
- **Integrated 2FA device access + experienced e-filing professionals** — ensuring timely, error-free submissions with no delays
- **Fully secure and court-compliant** — filings are executed under your direction, in accordance with all regulations

Built for Legal Workflows

- Engineered to meet the 2025 PACER 2FA requirements, ensuring seamless compliance for legal teams
- Developed by Counsel Press, the nation's leading appellate support provider
- Trusted by over 1,000 legal teams for secure, time-sensitive court filings and comprehensive appellate support
